▬▬ PROJECT

Tic- Tac- Toe
- Classic two player game where players take turns marking squares on a 3x3 grid.
- Uses basic programming concepts like loops, conditionals, and user input.

Student Record Management
- Program to store and manage information about students(Names, IDs, Grades).
- This can help you easily search, add or modify information, making record keeping a breeze.

Text Analyzer
- Program that reads a text file and analyzes its content.
- This program dives into a text file and analyzes its content. It can count characters, words, lines, or even specific characters like vowels, giving you insights into the text's composition.

Weather Website
- Website that displays weather information for a location.
- Check the forecast, current temperature, and other weather details all in one place.

▬▬ SUMMARY

- I seamlessly integrate into the work environment due to my high adaptability and eagerness. I possess solid critical Summary thinking, analysis abilities, and the skill to work well in a team. I effectively interact with my colleagues. My forte is improving communication and productivity at work, and my specialization lies in efficiently addressing issues.
